

APPLICATION FOR TRAVEL FELLOWSHIPS  
- THE INTERNATIONAL MYOPIA CONFERENCE 2008

Thanks to generous support from the Vision CRC, Australia and the Institute for Eye Research, Australia, \$20,000 is available to support IER-VISION CRC IMC travel grants for students/young researchers to attend the meeting. Young researchers are defined as those who are at post-doctoral or similar level on limited-term contracts.

A small committee will rate de-identified abstracts that have been submitted by eligible applicants. Funding will be allocated on the basis of the perceived value of the abstract and the costs of travel involved.
